

Vision Statement

At Woodlands Academy, preparing students for the next stage of their learning and life post-16 is central to our ethos. We support our students to develop the vital skills needed to enhance their career opportunities and further their career aspirations.

Milestones and Learning Outcomes

Stage 1

Through careers assemblies and the core PSHE theme of 'Living in the wider world', students will be introduced to the world of work and begin looking at careers. We start by thinking about people who help keep us safe; what their jobs are and what they do to help us.

Stage 2

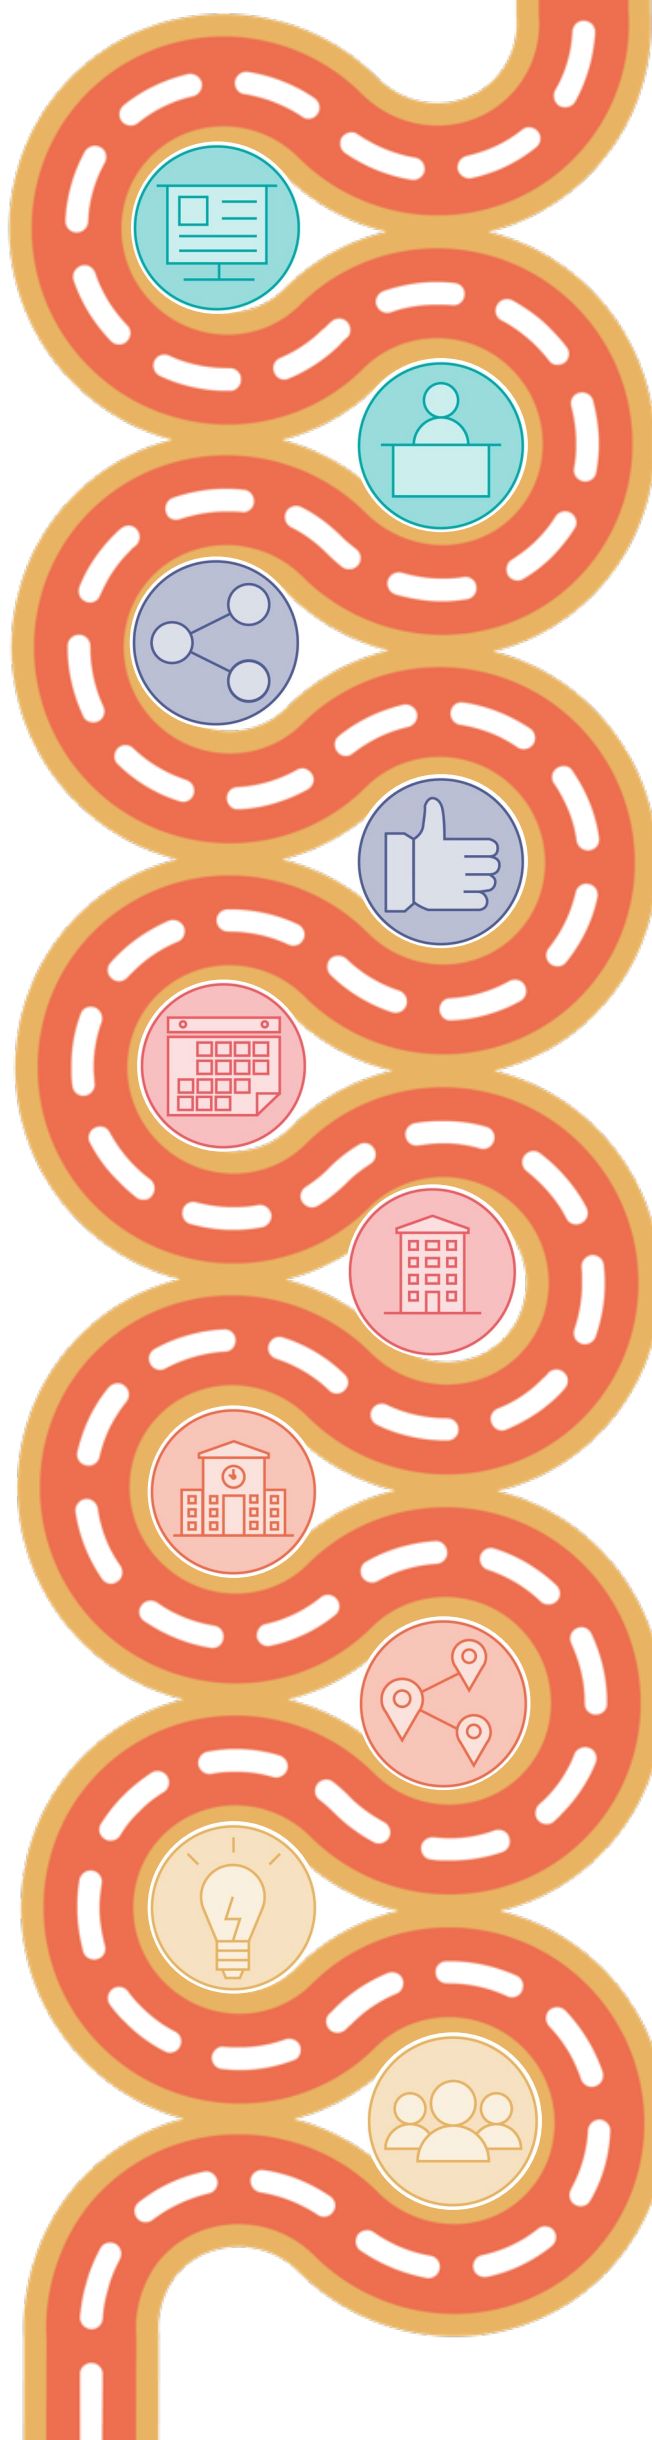

Students will begin to develop an understanding of different careers and areas of work they might be interested in. Students will develop an understanding of the different skills needed for different jobs and begin thinking about what skills they have or may need in the future.

Stage 3

Students will work on identifying their own skills and how they can develop these with a goal of future employment. Skill sets will be looked at and worked on through 'My Skills My Future' workshops and attending careers fairs.

Stage 4

Students will take part in work experience preparation sessions that will help prepare students for transitioning from school to employment. Students can take part in virtual or physical work experience placements either in school or externally.

Key Events and Experiences

- Careers Assemblies
- National Careers Week activities
- Christmas and Summer Fayre enterprises
- 'My Skills My Future' Workshop
- Scarborough STEM week
- 'Opportunities for all' virtual careers week
